CATALOGUE FOR FAIR ISSUED AND IS GIVEN WIDE DISTRIBUTION

In Addition to the Hancock County
Fair, to be held at the 10th
and 10th. Eight Community
Fairs Are Scheduled.

COUNTY AGENT PITTMAN URGES FRIENDLY COMPETITION

Says Every Man, Woman and Child
Ought to Take Interest and
Benefit Thereby. — Farmers
Should Take Advantage.

BY F. B. PITTMAN, County Agent.
The premium list of the Hancock
County Fair has been completed and
distributed throughout the county.
Eight community fairs have been
scheduled in different sections of the
county, and the prospects that point
to a series of live community fairs are
good.

This is a time when every man,
woman, boy and girl in Hancock
county will have a chance to come
together in friendly competition and
show to the public the things they
have been doing and the things for
which they stand. These little fairs
are going to be valuable to the
communities and to the people who
attend. They are educational mediums
through which new ideas and
methods are most easily carried to the
people. They teach co-operation and
foster community spirit.

The business men and financiers
have long since realized that the per-
manent prosperity of our country is
largely dependent upon the develop-
ment of its agricultural and live stock
resources, and they are endeavoring
to improve these resources through fairs
and other educational mediums.

The farmers of this section are fast
passing from the one-crop system
diversification has come to stay. Sen-
sible crop rotations have been intro-
duced on most farms. We are rapidly
growing into one of the greatest
livestock producing sections of the
country. Farmers who are willing to
improve their methods and keep pace
with their neighbor need help and de-
pendable information. The fairs are
the logical places to get this. There
you come in contact with the most
progressive farmers of the county
with an opportunity to exchange
ideas and swap experiences. If your
neighbor has succeeded in producing a
superior product, pig, goat or calf
you will be interested in finding out
how he did it.

These little fairs will be a suc-
cess if every one comes and brings
something to exhibit. The desire to
excel, wholesome rivalry without
a trace of jealousy is the spirit to
bring you to the fair.

LAST "EAGLE" LAUNCHED AT FORD SHIP YARD.

Five Hundred Ford Bodies Daily to Be
Made in Ford Plant.

Ford "Eagle" boat No. sixty—the
last to be built by the Ford Motor
Company under stipulations of its
time contract with the Navy De-
partment—was launched at the River
Rouge (Detroit) yard August 16th at
3:30 p. m., and the long assembling
building which is a third of a mile
long and housed twenty-one of the
submarine chasers at a time, is al-
ready being transferred into a body-
building plant with a proposed output
of 500 bodies daily.

Ford officials, workers, sailors and
many invited guests witnessed the
launching. Number sixty was dressed
with flags and bunting and as it
found its level in the Rouge and float-
ed free from the railroad tracks which
had carried it out onto the elevator-
like launching table, the factory whis-
tle took part in the ceremony by blow-
ing sixty blasts—one for each boat
launched at the Ford yard.

Twenty-five "Eagles" have already
been commissioned by the Navy, and
it is expected that remaining boats
will be entirely completed by Novem-
ber 1st. One thing which greatly pro-
longed the work was the changes
made in the outfitting of the boats
shortly after the armistice was signed.
As rapidly as the "Eagles" were com-
missioned, they are joining different
squadrons of the U. S. fleet. Six of
the Ford boats are going to the Phil-
ippines to replace six old destroyers
and gun-boats; another squadron will
join the International Patrol off the
coast of China; "Eagles" 1, 2 and 3
are now doing patrol duty adjacent to
Archangel, Russia, and it is quite
probable that a small fleet will be
sent to Italy.

The "Eagles" were designed par-
ticularly to carry the submarine de-
tecting devices, "distances," depth
bombs, protectors and three-inch
guns with which to combat the U-
boat once it had been located by the
"listener." They are practically noise-
less in operation, light, speedy and so
constructed that a quick get-away is
possible. It being necessary to often
stop to "listen" while chasing down a
detected sub. Had the submarine de-
stroyers been called into actual
service—which only the signing of the
armistice prevented—they would have
operated in flotillas of three.

Commander Nicholson, stationed at
the Rouge Yard, said he knew of no
statement or report issued by the Na-
vy Department relative to the merits of
the "Eagles," but that they have per-
formed remarkably well on their
trial trips and all tests given them
just before leaving the Ford Yard.
And that had they been called into ac-
tual service, they would have proven
themselves to be a most valuable asset
to the Navy.

CLEMIGENE FAVRE LEGACY CAUSE OF SOME COMMOTION.

Mrs. Mary Gager, Local Red Cross
Worker, Representing the Gov-
ernment, Is Being Sued By
Tribal Descendants.

STORY IS TRUE, BUT NEVER THE LESS SAD TO RELATE.

Descendants of the Five Civilized
Indian Tribes in and Around Bay
St. Louis Felt They Were
Entitled to a Share.

"Ugh! heap pretty pale face! me
want money!"

Dignified and solemn, gathered
about in her front yard in earnest as-
sembly, representatives of the five
civilized tribes of Indians greeted
Mrs. Gager with exclamations of
something like that. The words may
not be the same, but the meaning is
identical. The incident occurred at a
chapter in a little legacy playlet
which might be called "The Heirs of
Clemigene Favre."

This is the N. O. Item heads
a local story of paths viewed in its
truest sense.

The story, already well known, con-
tinues.

Old Clemigene Favre died back in
Oklahoma. As an Indian ward of
the government he had gathered a
considerable fortune. He was
Supintendent Gabe Parker, in Okla-
homa, instituted a search for the
Favre lineal descendants, and finally
learned one of old Clemigene's sons
— enlisted in the army in Bay St.
Louis. Mr. Parker wrote here to the
Red Cross association for aid in locat-
ing Dennis. Mrs. Mary Gager, a Red
Cross worker, found the boy in com-
pany I, Ninth Cavalry, and through
him she located his mother and half
a dozen other heirs. Mrs. Gager dis-
tributed the money to them, which
totaled several hundred dollars.

The news traveled fast. Evidently
the Favre family did not clearly un-
derstand whence this windfall had
come. So they passed the word
among their red skin friends that the
Great Pale Face in Washington
was giving away money to their
children. So shortly after sun-up
the next morning all the representa-
tives of the five improved tribes in the
neighborhood of Bay St. Louis greet-
ed Mrs. Gager as she opened her front
door and demanded their share of
the gift money. Mrs. Gager had
considerable difficulty in persuading
them they were not all heirs of old
Clemigene Favre but she finally suc-
ceeded.

LIVE STOCK DISPLAYS WILL SHOW PROGRESS.

Mississippi's Greatest Display of Live
Stock Will Be Shown at the
State Fair Next Month.

Mississippi's greatest live stock show
exemplifying the wonderful progress
of that industry in the State during
the past few years will be shown at
the State Fair, Jackson, next month.
Entries have already been made for
five standard types of beef cattle and
three types of dairy cattle. The man-
agement has offered an exceptionally
liberal premium list, which will be
supplemented with special awards by the
several breeders' associations.

The hog show will far surpass all
former displays of this kind, and one
of the notable features will be the
display of the most valuable hog in
the world, a Duroc, recently pur-
chased by Hugh Wade of Columbia,
for \$32,000.
It is conservatively estimated that
during the past five years Mississippi
stockmen have invested fully \$10,-
000 in pure bred cattle and hogs and
the pick of their herds will be sent
to the State Fair in October. During
the year 1918 Mississippi shipped 90,-
000 head of hogs to the St. Louis
market, and during first six months
of the current year, shipments total-
ed 142,000 head. This does not in-
clude heavy shipment to the Natchez
packing plant and other points.
The State Fair management is
planning to make the exhibit of dis-
tinct educational value, not only to
the farmers, but also to the boys
of the State. The Federal and

short talks each forenoon at the
same place for the benefit of the farm-
ers and club boys who are seeking
information relative to cattle and hog
breeding.

Despite the fact that Mississippi's
corn crop is not up to expectations
this year, the exhibits of the boys'
corn clubs according to Prof. C. A.
Gobb, assistant State director, who
has been in charge of this work for
several years, will be fully up to the
standard, and more numerous than
ever before. The juvenile farmers
have raised good crops, illustrating the
degree of intelligent direction of agri-
cultural effort.

MISSISSIPPI MOTHERS TO MEET IN GULFPORT.

Session There in October Promises to
Be of Unusual Interest.

The tenth annual convention of the
Mississippi Congress of Mothers and
Parent-Teachers Association, which
will be held in Gulfport October 30
to November 1, promises to be the
greatest meeting of child welfare
workers ever held in Mississippi.

Mrs. H. P. Hewes, president of the
congress, announces the following
speakers: Mrs. Milton Higgs, War-
ren, Mass., vice-president National
Mother Congress; Miss Anne Davis,
Illinois, director of day-in-school and
back-to-school drives, chairman of the
children's bureau; Miss Minnie Mas-
sey, Winthrop College, Rock Hill, S. C., kindergarten specialist; State Su-
perintendent W. E. Bond; President
F. D. Mellen of State Teachers' As-
sociation; Mrs. Eugene Crutcher, Nash-
ville, President Tennessee Par-
ent-Teacher Association; Mrs. Edward Mc-
Gowan, chairman child welfare and
special agency of children's bureau of
Mississippi; Mrs. Charles McDaniel,
Gulfport, vice-president National Con-
gress of Mothers.

No effort will be spared by the
Chamber of Commerce, the Gulfport
Board of Education, the Parent-Teacher
Association, and the local community
to make the meeting a most agreeable
one to the delegates and guests.

Merge Property at Pass Christian Sold for \$23,000—To Be Used as Health Institution.

Prof. Schoenfeld, a well-known and
popular athletic instructor of New
Orleans, has purchased the large and
elegant J. H. Menge property in east
end of Pass Christian, the considera-
ble sum of \$23,000.00, says the Pass Christian
Beacon of to-day's date. Prof. Schoenfeld
proposes to make some exten-
sive improvements and changes on
the place, and will use it as a recup-
eration home for the wealthy in need
of rest and attention. It is said a
number of cottages will be added to
the spacious grounds, and constructed
so as to meet the convenience and
needs of his patients.

Governor-Elect Russell to Visit Pass Christian at Early Date.

Pass Christian Beacon.
Gov. Lee M. Russell, accompanied
by his wife, and Senator-Elect W. H.
Ward, Representative-Elect Houston
Evans and President of the Board of
Supervisors Icham Reeves were at the
Pass Christian airport yesterday enjoy-
ing an auto drive through this part
of the county. Mr. and Mrs. Russell
will soon come to Pass Christian for
a stay of several days, on an invita-
tion from Mayor Sutter. While here
the stay of the distinguished guests
will be made pleasant in various sim-
ple ways.

Birds' Prayers of the Northwest.
Those of us who have lived in the West, among the feathered songsters that make their summer homes among the leafy boughs of forest trees realize how far and how long they travel the prairies for days and meet with less than half a dozen varieties. Especially in this part of the country it is desirable that we should conserve what we have left of the feathered tribes and seek to induce others to visit us. A birdless country is something difficult to picture; it is not an impossibility should we fail to respect the laws now provided for the perpetuation of the migratory and other species. —Calgary Herald.

Concrete "Piles"
The pile, used for a wharf inside the new pier at Butte, Tysanama, are concrete tubes or pipes 12 feet long and 4 1/2 feet in diameter, the wall being one foot thick. The pipes are produced in a steel cylinder, which is placed on four wheels, and rotated by an electric motor at the rate of 250 to 300 revolutions per minute. As the concrete mixture is thrown in, the centrifugal force throws out the water, each length of pipe being completed in about fifteen minutes. To get the required height, these sections are placed one upon another, with cement between, and an eight-inch steel band is placed over the joint. The hollow center is filled with sand.

Poor Time to "Butt in"
The pale gentleman in the frock coat bore down on the red-faced, rumpled fellow lying across a seat on the "down" platform.

"My friend," remonstrated the pale gentleman, "tell you ever reckon you got it if you had the price of one drink out at compound interest at the time of the beginning of the Christian era you would have \$15,460,284!"
The red-faced, rumpled fellow man raised himself on one elbow.
"No," he replied, "I haven't figured it out. But I'm something of a calculator, all the same, and if you don't go away about 137 yards in nine and a half seconds I'll hit you 17 times and make you see \$2,196 stars. I've just had your teeth pulled out and you'd better go away before the arithmetic class gets over the ropes and calls time."

French Farmer Had 36 Children.
A French farmer had 36 children—22 sons and 14 daughters—all of whom were living when the war broke out. The father when they were shot by Germans because they went to Little to attend a party in honor of a relative's one-hundredth birthday; a second daughter was killed by a German shell at Dunkirk; three sons were discharged from the army with grave injuries and thirteen were killed in action. Walking for Pleasure.
The old-fashioned person who used to walk miles after mile on pleasant Sunday afternoons through the countryside, has practically disappeared. This is the inevitable conclusion drawn by anyone who still pursues this ancient pastime and who has spent Sunday after Sunday drilling by foot over macadam and dirt roads frequented by automobilists and an occasional farm hand traveling to a neighbor's.
Walking for the sake of the walk has nearly passed out, along with the one-horse rig, the glass-lensed artificial flowers in the parlor and hair-covered furniture. It had its day before the bicycle and the automobile and with the advent of these quicker, easier means of transportation it dropped from the human scheme of things with a dull thud. —Omaha News.

Advantages of Sheep.
Sheep need pasture. They are adapted to graze rough land and in this they clean fields and pastures of weeds. They reproduce rapidly, since a trio will soon stock a small farm.

Keep Beef Calves Growing.
Ensilage, if available, is best and cheapest feed when pastures have become short.
(Prepared by the United States Department of Agriculture.)
Beef calves on pasture should be kept in a thrifty, growing condition. If the pasture becomes short the cows should be fed to otherwise the development of the calves may be checked. Ensilage, if available, is the cheapest and best feed. Good hay is an excellent supplementary feed, and cows, even on a fairly good pasture, seem to relish a small quantity of dry feed. Soy beans, cow peas, or other pasture crops may be used. If it is not practicable to supply supplementary feeds to the cows the calves should be fed a little grain. This can be done easily by placing a small quantity in a creep in the pasture. A mixture of one-third corn, one-third oats, and one-third bran by weight is a good feed for this purpose.

LIVE STOCK

SPECIALIZE IN FEEDER HOGS

One Hundred Carloads of Cholera-Free Animals Shipped Annually From South Dakota.
(Prepared by the United States Department of Agriculture.)
Feeder hogs, perfect as to specification and designed to satisfy the most discriminating purchaser, are exported annually from the Belle Fourche reclamation project, South Dakota. Approximately 100 carloads of cholera-free and alfalfa-raised porkers are shipped each season. The output for the last few years has been purchased by Nebraska farmers who fatten and condition the hogs for the central markets. A special advantage about such shipments is that the animals need not be held in quarantine while vaccinated to satisfy the requirements of interstate shipment, and the purchaser does not have to bear added expenses, such as yardage and feed costs, which he would have to pay if he bought his stock hogs on the central market.

The Belle Fourche project was recently declared free from cholera by

Dakota Farmers Specialize in Feeder Hog Production.

the state live stock sanitary board. The hog growers of that section have decided it is most profitable for them to produce feeder hogs because the high price and limited quantity of corn in their vicinity available for feeding purposes make the fattening of hogs a hazardous undertaking. On the other hand, alfalfa hay is grown in abundance, and the pasture afforded is keenly relished by the hogs. Hence the project farmers are limiting their operations to feeder-hog production.

A co-operative live stock shipping association has been organized on the Belle Fourche project to market the hogs in unique fashion this fall. The plan is to secure carload orders for these hogs so that they may be shipped out in small train loads for delivery to points east of the Missouri river. The idea is to have about fifteen cars of hogs in each train, these cars being loaded at Newell and Nisland on the project and to be carried to destination, without stopping for feed or water, within the 26-hour limit. Information is being promulgated among the prospective buyers along the route regarding the freight rates on a minimum car of feeder hogs so that they can estimate accurately the gross cost of such a load of quality feeders delivered at their destination. The hogs sold during the fall of 1918 ranged from 16 to 21 cents a pound 6 or 8.

The Belle Fourche plan of marketing feeder hogs should be of interest to other stock raisers and feeders in various sections of the country. Illustrating, as it does, a new method of regional distribution. Handling through a co-operative shipping association directly from the producer to the purchaser makes it certain that the buyer will receive the hogs at his station at a minimum cost for handling in transit. Furthermore, the fact that the animals come from a cholera-free country is positive insurance against losses from that disease. If the hogs are not exposed to infection in transit or subsequent to their delivery at their new homes. Prospects are that in the future many South Dakota farmers in the eastern part of the state who raise considerable corn and make a practice of feeding the grain to hogs will rely to a certain extent on the animals coming from the Belle Fourche project.

INDIGESTION Caused by Acid-Stomach
Millions of people—in fact about 9 out of 10—suffer more or less from indigestion, acute or chronic. Nearly every case is caused by Acid-Stomach.

There are other stomach disorders which also are sure signs of Acid-Stomach—belching, heartburn, flatulence, food repelling, sour, easy stomach. There are many ailments which, while they do not cause much trouble in the stomach itself, are, nevertheless, traceable to an acid stomach. Among these are nervousness, melancholia, chronic of the liver, indigestion, impoverished blood, weakness, insomnia, and a host of other ailments. The right thing to do is to attack the elements at their source—get rid of the acid stomach. A wonderful modern remedy called EATONIC now makes it easy to do this.

One of hundreds of thousands of grateful nine years and have enjoyed quite a run for medicine, but without relief. After using EATONIC for a few days the acid and pain in my bowels disappeared. EATONIC is just the remedy we needed.

WHITE LEGHORN IS POPULAR
Most Widely Kept of Egg Breeds—Markets Prefer White Eggs and Pay Premium for Them.
(Prepared by the United States Department of Agriculture.)
Egg production doubtless is the leading branch of poultry keeping, and, in addition, is a very important agricultural activity. According to the last census the eggs produced in the United States in 1909 numbered more than 4,591,000,000—dozens with a value of more than \$906,000,000. Eggs, of course, are produced wherever chickens are kept, and as for the greater part of the egg crop comes from the general farm, yet large so-called egg farms have been developed with the main purpose of producing eggs for market. The largest of these egg farms and the greater number of them are located near markets which pay a premium for white eggs; and for this reason, together with the fact that eggs are primarily desired, the breeds kept are those known as the

Will Preserve Historic Spots.
The western front is to retain some of its battlefields, at least, as war memorials. The decision of the French government to preserve in their present condition selected sites and to prohibit any alteration will be welcomed by many who feared that the destruction and mercenary hands of the cafe proprietors, the souvenir sellers, the restaurateurs, and the hotel keepers would obliterate historic spots in their efforts to provide attractions for the coming throngs of tourists. Among the places already decided upon are the forts at Verdun, the trenches of Soissons, the underground mines of Meuse, the ruins of Barham, and the mangled remains of Ploeghe.

HAD TO GIVE UP
Was Almost Frantic With the Pain and Suffering of Kidney Complaint.
Doan's Made Her Well.

Mrs. Lydia Shuster, 1838 Margaret St., Frankford, Pa., says: "A cold started my kidney trouble. My back began to ache and got sore and lame. My joints and ankles became swollen and painful and it felt as if needles were sticking into them. I finally had to give up and went from bad to worse. My kidneys didn't act right and the secretions were scanty and distressing. I had awful chills and spells when everything before me turned black. One time I couldn't see. My doctor for twenty minutes. A great pain in my head set me almost frantic and I was so nervous I couldn't stand the least noise. How I suffered! Often I didn't care whether I lived or died. I couldn't sleep on account of the terrible pain in my back and head. Nothing seemed to me a bit of good until I began using Doan's Kidney Pills. I could soon see they were helping me, for the backache stopped, my kidneys were regulated and I no longer had any dizzy spells or rheumatic pains. I will take Doan's Kidney Pills for the rest of my life. They keep my kidneys in good health. Sworn to before me. E. W. CASSIDY, Jr., Notary Public."

GEORGEOUS EVENING GOWNS AND OTHERS

Heavy satin cloth of silver and rich fall are the materials that are in demand for formal evening gowns. These materials are gorgeous in themselves and therefore adapted to the present styles in evening dress, which depends upon graceful draping of the figure and not upon embellishments for interest. It is beauty of fabric and beauty of lines that must hold the attention.

Sometimes, in the simpler models, the drapery suggests the ease and flowing lines of the classic Greek garments, and sometimes a single piece of material appears to be wrapped about the figure, with a long loose end forming a train. But an artist in drapery may use material more freely than is indicated in either of these styles so long as he knows how to use drapery to glorify the figure. The corsage is usually plain and flat at the front and held in place by narrow shoulder straps. It follows the lines of the corsetless figure very closely here and does not concern itself with covering much of the back. Gowns of this kind, cut in

Paris Launches New Silhouette

The tulle skirt and the straight line, and the chemise dress have had a long reign. But now they bid fair to be displaced, beautiful as they are, by fitted lines, the full hip and skirt, panther and other draperies that began to the period of Louis XV for inspiration, and to the time of the Second Empire.

Changes in styles from present lines to those for fall promise to be radical. They are in the experimental stage just now, but designers are drawing upon many sources and times for ideas and presenting entirely new creations that have many allurements besides that of newness, to compel success for them.

The Directorate influence is the dominant feature in the odd costume for afternoon, pictured above. It has a plain skirt made of fibre silk apparently in an irregular brocade pattern, and—yes—a redingote of satin entirely covered with a scroll pattern of silk.

GAUZE TURBANS.
Some of the new gauze turbans are enormous, so wide that they completely hide the hair, even at the sides. Some lovely ones of this order are being made of silver gauze embroidered in black and veiled in flesh pink tulle. A startling turban seen the other day was made entirely of light green tulle. The decorative material was worked round

Get Something Different From Battle

GETTING together for the post office and the schoolhouse, he linked together the coordination of producers and consumers of food? The people of the New district, Washington, D. C., have a flourishing community center. The community secretary is a postal station agent.

One of the motortruck routes from Washington leads to Gettysburg, Pa. In this region hundreds of tons of vegetables, fruit, and so forth, have rotted simply for lack of a market.

The route passes through Mount Joy township, Adams county, Pa., which is on the edge of the historic battlefield of Gettysburg. The people gathered in the Two Tavern schoolhouse and formed the Mount Joy Community association. The teacher was made the community secretary and a postal agent of the motor transport service of the post office department.

The motortruck stops each morning at the schoolhouse and picks up the crates of eggs, containers of butter, boxes of poultry, etc. These goods are delivered the same evening at the Park View schoolhouse in Washington and there distributed to the people of the community.

The list of prices is sent each week by the Mount Joy community secretary to the Park View community secretary. Orders are sent out and the goods shipped. Payment is made by check weekly, and the community secretary at Mount Joy keeps the records of the shipments made by each farmer and makes payments accordingly.

Children and Soldiers in a Red Cross Canteen

CHICAGO—Kenneth, eight years old; Keith Bernard, seven, and Dimples Barbara Hayes, "five and one-half, gold" on six, spent a day at the Red Cross canteen, 309 South Michigan avenue. Kenneth and Keith and Dimples, Wash., on their way to join their grandmother, Mrs. C. C. Hayes, who lives at Norris, Ky. Just a month ago the three children lost their father and mother, Mr. and Mrs. Jay Hayes, who died of the influenza. Then Ann Ida, who "didn't have no other name," took the three under her wing and gave them a home. A week later she too, was dead of the malady.

Neighbors took counsel and a collection. Kenneth and Keith and Dimples were bundled up in their warmest clothing, tagged through to Norris, given \$3, and started on their way. From the time the big train pulled out of Chicago, their life was a round of pleasure. For four days they delighted their fellow passengers, who took up a collection that raised their currency from \$3 to \$34.

A passenger agent at Union station called up Mrs. Joseph T. Ryerson, who sent her car for the children. In the canteen were soldiers who seemed to be homeless also. Dimples introduced herself and got the history of each one.

Kenneth sat still and stately as becomes a man and managed the other two as best he might. Keith's ulcerated tooth—it didn't pain much and kept him in the limelight—was lanced. At supper Kenneth said "grace."

The children resumed their journey at 9:30 that night; three in a berth.

Cupid and Cupidity at Indiana's Marriage Mill

CROWN POINT, IND.—Forty-odd miles south by southeast, as Cupid flies, lies Crown Point, Ind., famous as a "lovers' leap," where marriage is made easy while you wait. Intrenched deeply in the affections of the town is an institution known as the "marriage mill" that grinds out the daily bread of a number of Crown Point's influential citizens.

And Crown Point is sore! And Crown Point is sore at Chicago. And Crown Point is sore at Chicago because the Chicago newspapers have published the statement that with the approval of Governor Goodrich of Indiana, so many of that state were preparing to pass a law requiring a residence of one year in the state on the part of one of the applicants for a marriage license. The repeated declarations of Chicago divorce judges that "quick and easy" marriages cause most matrimonial misadventure prompted the proposed action.

There were 4,028 marriage licenses issued in Crown Point last year. Practically all of the applicants were wed in the town, and practically all by two justices of the peace. The standard fee is \$5.

Herbert Wheaton, clerk of Lake county, has declared war. "We'll fight to the finish any attempt to pass a law to stop marrying in Crown Point. I don't see why Chicago wants to butt in on our affairs. It's none of Chicago's business what goes on in Indiana."

Where Names and Business Fit; It Is to Laugh

NEW YORK—Among the features of this cosmopolitan city that furnish amusement without cost to many observant residents are names over stores and business establishments. The appropriateness of the nomenclature to the calling is sometimes startling and generally amusing. Here are a few of the most striking of the names found in singular juxtaposition to businesses and callings and which seem almost like humorous fiction:

Fodder, hay and oats: Vamp, shoe-maker; Klene, laundry; Tleman, haberdashery; Goodman, pastor; Eisenman, optometrist; Piper, orchestra leader; Tibb, Chinese laundryman; Betty, miller; Lott, real estate; Rapper & Kibgaw, books and suits; Holder, trunks and bags; Ketchum, private detective agency; Takime, photographer; Darc, steepjack; Stearns, silversmith; Burns, kindling wood; Tinker, tin-smith; Sticker, cobbler; Health, physician; Riskey, liquor dealer; Smokann, cigar dealer; Black, blacksmith; Korn, chronometer; Feltus, dentist; Waver, hairdresser; Waters, milk dealer; Brakenhe, stocks and bonds; Swift, expressman; Smushitt, moving vans; Lighter, electrician; Glasing lamps; Noyes, boiler-maker; Smith, horse-shoe; Keys, locksmith; Dyer, cleaning and dyeing; Goodshove, theatrical manager; Skinner, taxidermist; Snow, ice dealer; Sharpe, cutlery; Bright, illuminated signs; Pyde, book binder; Shipman, stevedore; Taylor, tailor; Feeder, restaurant keeper; Kollers, paints and varnish; Baker, baker; Sweetman, confectioner; Pennypacker, toy banks; Pahn, glazier; Hammersmith, hardware; Wright, public stenographer; Egers, public accountant.

So Near and Yet So Far in the Utah Mountains

MANILA, UTAH.—It is 50 miles from Manila, Utah, to Vernal, Utah, as the crow flies. But it is 1,000 miles between those two points during about nine months of each year, and this mileage between those two towns is the reason an additional county was organized in Utah, with Manila the county seat of the new political subdivision.

Manila was formerly in Uinta county, the county seat of which was Vernal. The county seat virtually was inaccessible from Manila during a long period of each year, due to high mountains, a forest and other barriers.

In this contingency Manila citizens having business at Vernal could from there to Denver, Pueblo and Grand Junction, Colo., and thence over the Uinta railway and stage line to Vernal.

An optional route was to journey west to Ogden, to Salt Lake City, to Provo and Springville via the Denver & Rio Grande railroad to Mack, Colo., and thence take the Uinta railway and stage line to Vernal.

And so it came about that Duggett county was created with less than 500 population, who cast less than 100 votes at any election. Manila was made the county seat, the citizens of the new county consenting to assume the heavy burden of a camp government to obviate a journey of

Calomel Loses You a Day's Work! Take Dodson's Liver Tone Instead

Read my guarantee! If bilious, constipated or head-achy you need not take nasty, sickening, dangerous calomel to get straightened up.

Every druggist in town—your druggist and everybody's druggist—has noticed a great falling off in the sale of calomel. They all give the same reason. "Dodson's Liver Tone is taking its place."

Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. "Dodson's Liver Tone is personally guaranteed by every druggist who sells it. OLD-TIME RULES OF CIVILITY
Undoubtedly Were Taken Seriously in 1675, but Would Seem Somewhat Elementary Today.

There was published in 1675 a curious book called "The Rules of Civility," and one of the things impressed upon the reader is that "being in discourse with a man, 'tis no less than ridiculous to pull him by the buttons, to play with the bandstings, belt or cloak, or to punch him now and then in the stomach; 'tis a pleasant sight, and well worthy of laughter to see him that is so punched, fall back, and reproach the other, 'inseparable of his absurdity, pursues and presses him in to some corner, where he is at last glad to cry quarter before his comrade perceives he is in danger.' Further, the reader is informed that "it argues neglect, and to undervalue a man, to sleep when he is discoursing or reading; therefore good manners command it to be forbid; besides, something may happen in the act that may offend, as snoring, sweating, gaping or dribbling."

Safe.
"I gave up cocktails and rouge just to please him," sobbed the fair plaintiff, formerly of the "Polles."
"Order in court," cried a bailiff as a sympathetic juror groaned aloud.
"Look here," said the defendant to his lawyer, "I'm afraid we are going to lose this case."
"Don't worry," answered the lawyer. "The fellow who gave me a man-about-town. The other jurors are old-fashioned men."—Birmingham Age-Herald.

The American Revolution was unquestionably a great historic event by reason of its connection with the formal institution of a new nation, but the roots of our national life were not then planted. They run back to the first settlements and the first chapters and agreements, nor is the genesis of the nation to be found there; sharp as are the beginnings of our history on this continent no student could content himself with a conception of our national life which took into account only the events and conditions determined by the people and soil of America. CHAS. G. MOREAU, Editor and Pub.

CITY ECHOES.

Miss Lucille Weston, of Logtown, left for Belhaven College, at Jackson, Tuesday morning.

Mrs. H. Weston has returned to Morrilton, Ark., after a visit to relatives and friends at Logtown, her former home town.

Dr. and Mrs. Alvin P. Smith and children returned home last night from an automobile trip to Gulfport in their car.

Mr. James Shamsy was among the number from Bay St. Louis to be received in the ranks of the Shriners, at Meridian during the week.

Miss Belle Osoinach left for her home in New Orleans Monday afternoon, after a ten-day visit at the home of her brother, Mr. John Osoinach, on the beach front.

Mr. George Horton left during the early part of the week for New Orleans on his way to Mississippi A. & M. College, where he will resume his studies so auspiciously begun last year.

Owing to failure of arrival of paper on time from our paper house at Birmingham, Ala., this issue of The Echo is delayed. This is unusual and we regret the delay exceedingly although unavoidable.

Major W. A. McDonald has returned home from an extensive trip to Tennessee, where he visited relatives and friends. During the week he visited Meridian, attending the Mississippi Shriners meeting.

M. L. Jensen, former merchant of Kiln, has purchased the grocery business of Sam Melito, corner Main and Second streets, and has taken active possession of the business. The Melito family move to New Orleans.

Mr. and Mrs. R. de Montuzin and Master Rene de Montuzin returned home last evening from a week's stay at Meridian, where Mr. de Montuzin participated in the Shriners activities of Hamasa Temple.

Mr. George J. Toca has been absent all week, returning home last night. He was at Meridian and became and is gratified at his visit and the result attendant.

Mr. and Mrs. De Ben and family returned to New Orleans Sunday, closing the summer home, (formerly the Mallard home), for the winter season. Miss Carmen De Ben was one of the belles of the younger set this summer.

Miss Mary Perkins left Thursday night for Gainesville, Ga., where she has entered on her second year's study at Brenau College. Miss Perkins spent Wednesday in New Orleans, where she attended the wedding of her friend, Miss Deynoud.

Among the affidavits made during the week by the City Marshal was one for the arrest of a delivery auto driver for exceeding the speed limit; the other was against a party for conducting a business without the proper license.

Mrs. E. J. Lacost and children and sister-in-law, Miss Lacost, have returned from New Orleans, where they spent a week, registered at the DeSoto Hotel. Mr. Lacost, who has been spending a while in New York on business, is expected home shortly.

All signs to the success of the Hancock County Fair, to be held in Bay St. Louis October 9th and 10th, indicate much favor. The management report the outlook encouraging. Copy of catalogue can be had on application to Mr. Frank B. Pittman or Miss Sallie Clout.

A well-known local attorney said to The Echo Wednesday, "It is surprising the number of sales in real estate taking place these days. Not all very big sales, it is true; but the aggregate is surprising and the market is active. Right now I have a number of deeds to draw up in order to close as many transactions."

Mr. and Mrs. George H. Edwards entertained handsomely at bridge Friday evening, their entertainment was largely attended and proved one of thorough delight. Mr. and Mrs. Edwards are planning to leave at early date to spend the winter in New Orleans.

Mr. L. H. Heymann and family left for New Orleans last evening, in which city they will make their home, after a residence here of several years. Mr. Heymann's business in the big city has expanded to such an extent that it became necessary to devote all of his time to his affairs, their many friends here will regret their departure.

Mr. W. H. Henderson and daughter, Miss Clara, came out from New Orleans Sunday and will spend two weeks visiting at the home of Mr. Henderson's sister-in-law, Mrs. M. E. Ansley, and family, in Keller street. Mr. Henderson, a former Bay St. Louis resident, is always glad to get back here, he says, and always a source of much pleasure to be with our people again.

Myrick Ansley, recently returned from a cruise up the Mississippi river as far as St. Louis, with the U. S. sub-marine exhibition, was a home Monday on a visit to his mother, Mrs. M. E. Ansley, and has returned to the Algiers Naval Station, where he is located for the present. He reports the cruise a great trip. He says where ever the men stopped they were specially entertained, especially at St. Louis and other larger places of landing.

Bay St. Louis was exceptional fortunate in escaping damage from the tail end of the tropical storm of Friday and Saturday, considering that sustained at other points along the coast occasioned by the high water. Only two places along the beach front, where the street grade is level with tide water, damaged was sustained. However, Mayor Webb and Street Commissioner Barzansky are losing no time in restoring the roadway at Cedar point and near the Bay-Waveland dividing line.

Mr. and Mrs. J. G. Spior, registered at the Victory, are preparing to leave for New Orleans during the early part of next week. They have vacated the charming dwelling, which they purchased during the early summer for their own occupancy and given up the premises. It appears a valid title to the purchase cannot be given, hence the departure of the sale before final payment was made.

MAUFFRAY HEADS LOCAL KNIGHTS OF COLUMBUS COUNCIL

Was Selected Sunday Night To Head Pere LeDuc Council at Annual Meeting Held for the Purpose of Election.

H. S. SAUCIER WAS RE-ELECTED DEPUTY GRAND KNIGHT.

Full Quota of Officers Elected—Bay St. Louis Knights of Columbus Have Largest Membership Roll in History.

Annual meeting of Pere LeDuc Council, K. C., No. 1522, was held at the K. C. Hall Sunday night. Joseph Mauffray was elected to head the local council for the ensuing year, receiving such compliment and manifestation of confidence that a unanimous vote carries. Having served the council in former years for several consecutive terms, Mr. Mauffray did not wish his name to be put forward, but the pressure was so overwhelming that he accepted the retiring grand knight, Robert L. Geniey, who served the council so efficiently and untiringly, asked that his name be withdrawn from nomination as his professional duties called him away from a great deal and his time would not permit to give that attention to duty he felt would be necessary to carry on the work.

After the balloting of the evening had been completed, the following named were elected to the various offices, viz:

Grand Knight—Joseph O. Mauffray.

Deputy Grand Knight—Harry S. Saucier.

Chancellor—Sidney J. Doussan.

Recording Secretary—Arthur A. Scafield.

Financial Secretary—George J. Mull.

Treasurer—Alphonse G. Favre.

Advocate—Emile J. Cox.

Inner Guard—Albert Jones.

Outer Guard—Peter Monteleone.

Trustee—W. H. Starr, 3 years.

Pere LeDuc Council is in a most flourishing condition. Its membership in the past year, and its present roll is the largest in the history of the organization. The council owns its building, improvements are contemplated, and its finances are excellent.

The social and insurance features of the Knights of Columbus organization, to say nothing of its moral and uplifting influences, and its excellent record made during the year and away from the battle zones, prove attractive and it is no wonder the membership improves all over the country and the organization is riding the crest of the wave of popular members were received in the local initiation exercises some two or three weeks since, and already a number of applicants have filed notice of their intention to become candidates for the next class to be received.

Mr. George H. Edwards returned home yesterday morning from Meridian by way of Picayune, at which place he took the degree incidental to becoming a Shriner. Mr. Edwards reports his trip one of much interest to the Magic City of the East.

Mrs. W. H. Hardesty entertained the Home Mission Society Tuesday afternoon at the family home in State street. The meeting and reception was numerous attended, and, in all, it was one of the best assemblies in a long time. The Bay St. Louis Home Mission Society is active and forms an integral part of the Main Street Methodist Church.

Mrs. L. M. Power and mother, Mrs. Abrahams, and dainty little Miss Edna Power, reached home Monday morning from Los Angeles, California, where they spent the entire summer, visiting many of the resorts in the immediate vicinity, and also in the mountains. Their stay in the enchanted-like land of California was one of much pleasure and interest and long to be remembered.

Mr. John G. McGuire, former newspaper man of Yazoo City, and traveling representative for E. C. Palmer & Co., of New Orleans, was a business caller on The Echo yesterday. He registered at the Pickwick.

Mr. McGuire said, "It is always a pleasure to come to Bay St. Louis, not only because The Echo always gives such big orders for paper, but because the town is irresistibly charming."

Mayor E. W. Webb returned home from New Orleans Tuesday night, after a day spent with representatives of the purchasing department of the government, and succeeding in having shipped to Bay St. Louis a new load of provisions, to be sold at the City Hall on Thursday of next week, beginning at 9 o'clock.

On the first page of this week's Echo will be found a list of provisions to be offered the local public, and the price of each article. It will be well to cut the list out or save the copy of the paper for reference. In procuring this car load of provisions for Bay St. Louis Mayor Webb well manifests his interest in the welfare of the people, for in this personal effort he will materially assist the people in combating the high cost of living. The goods are all first-class and the prices way below current market quotations.

Dr. A. A. Kergosien, chancery clerk, was a visitor to Pascagoula on Wednesday on official business. While there he visited the great shipyards, the city of the plant, the efficient and popular courthouse official to The Echo. It is one of Mississippi's greatest industry, and must be seen to be appreciated. The amount of capital invested is astonishing. Over two hundred millions dollars were expended before the first ship turned out could be built. Thousands of men still work there notwithstanding the war is over and activities have been called to a considerable halt. The surrounding premises present a veritable city in itself. There are newly-built bungalows, lovely, painted red and green respectively, each color alternating. A visit to Pascagoula ship yard is a revelation and well worthy of a visit. While there

The car you have been waiting for
HAS ARRIVED—
THE MONROE CAR!

The Monroe Touring Car

The Monroe Touring Car pictured above is distinguished by its handsome appearance, its correct mechanical principles and, above all, by its FINE RIDING QUALITIES. Due to its very strong frame construction, and its cross compound cantilever rear springs, this car actually rides as easy as cars of double its weight. The same causes contribute to a tire and fuel economy that is truly astonishing.

This car can now be seen at Schneider's Garage, and demonstration given. Parts for the MONROE kept in stock in Bay St. Louis. No waits—no delays for parts. Three months up keep given to every purchaser of a Monroe Car. Demonstration free. You cannot get a better value for your money.

CAMELS are in a class by themselves—easily the most refreshing, the most likable cigarette you ever smoked. You can prove that! Simply compare Camels puff-by-puff with any cigarette in the world at any price! Put quality, flavor and cigarette satisfaction to the utmost test!

Made to meet your taste, Camels never tire! No matter how liberally you smoke them! The expert blend of choice Turkish and choice Domestic tobaccos makes Camels delicious—so full-bodied, yet so fascinatingly smooth and mellow-mild. Every time you light one you get new and keener enjoyment!

Freedom from any unpleasant cigarette after taste or any unpleasant cigarette odor makes Camels as unusual as they are enjoyable.

In fact, Camels appeal to the most fastidious smoker in so many new ways you never will miss the absence of coupons, premiums or gifts. You'll prefer Camel Quality!

Camels are sold every where in carefully sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.
